## WHY SHOULD YOU TURN TO A CPA

A CPA is not just a number cruncher and tax preparer. A Certified Public Accountant is a business and financial strategist who can help chart a successful path for individuals and businesses.

A CPA has passed the extremely difficult CPA Exam and engages in continuing professional education for the renewal of the state licensing. CPAs have stringent qualification and licensing requirements and can provide a high level of service to their clients.

What should you look for when choosing a CPA?

Consider the following questions in your search:

- Does the individual hold an active CPA license?
- Does the CPA have the experience you need?
- Is the CPA's personality and communication style compatible with your needs?
- Are your calls or emails responded to in a timely manner?
- Is the CPA a member of a professional association?

Define your expectations and objectives ahead of time to formulate the questions that are important to you. This will help you find the CPA best suited to your needs.

At Randee Abramson CPA, we are here to bring you the highest level of professional accounting services.
